## Summary

Frontend Developer specializing in **React and React Native**, with experience building responsive and scalable web and mobile applications. Successfully led the **end-to-end development** of an onboarding system for **CAL (Israel Credit Cards Ltd.)** as the sole developer. Currently contributing to **El Al's flight booking engine**, optimizing performance and enhancing user experience for thousands of users. Recognized for **rapid learning and adaptability**, quickly mastering new tools and technologies to deliver production-ready solutions.

## Skills

JavaScript • TypeScript • React Native • React • Redux Toolkit • Styled-Components • HTML/CSS • Agile

## Work Experience

### Frontend Developer
Oct 2022 – present

abra • Full-time

Israel

**Technologies: TypeScript • JavaScript • React • React Native • HTML/CSS**

- **El Al Airlines – React Native Flight Engine (Current Role)** Developing the flight search and booking engine for El Al's mobile application using React Native. Responsible for building complex modules, optimizing performance, managing application state with Redux Toolkit, and integrating advanced analytics to enhance user experience and booking flows.
- **CAL (Israel Credit Cards Ltd.) – Onboarding System** Sole developer of a complete onboarding application for a leading financial institution. Designed and implemented a fully responsive, user-friendly system in React, managing the entire lifecycle from requirements to production delivery.
- **CyberArk – Advanced Installer Migration Project** Led a project to modernize the installation process of a core CyberArk product using Advanced Installer. Required deep self-learning and research from scratch without prior experience, successfully delivering a production-ready solution.
- **Freelance – WordPress Development** Built and customized a WordPress website with PHP code and best practices. Demonstrated adaptability and fast learning by delivering a high-quality solution without prior PHP experience.
